## REGTech 2021

📅 18 Jan 21 - 19 Jan 21 (UTC+8)  
📍 Malaysia

Renewable Energy & GreenTech Sabah 2021 (REGTech2021) goes virtual!

Due to the pandemic crisis of covid-19, since the lock-down in March 2020, and followed by the Recovery Movement Control Order (RMCO) until the end of 2020, REGTech will be organised virtually.

REGTech is Sabah's first ever renewable energy and green technology that will become the leading platform for professionals to share ideas to promote and support the greater use of green energy and technology. The 1st REGTech was held in November 2017 and in a physical setting.
